
Product Information Sheet

Woven Labels

We produce woven labels in any size, colours and design to ensure you have the perfect label for branding your garments and accessories.

Label Qualities

We offer a range of woven label qualities for you to choose which will best suit your requirements. Qualities available include:

Damask

This is our most popular label quality as it gives greater clarity for fine and detailed text and designs.

Satin

These labels do not provide the level of detail achieved with Damask labels but offer a smooth, shiny, soft appearance and feel.

Taffeta

These labels do not offer the level of detail of Damask or the softness of satin but are a lower cost option and are suitable where bolder text and images are used.

Also available are specials such as padded labels, die-cut labels, woven badges with merrowed edges and labels with heat applied backing.

Samples of all these label qualities can be found on pages 2-8.

Cut & Fold Options

Cut & fold options available include:

End Fold

Straight Cut

Centre Fold

Mitre Fold

Manhattan Fold

Illustrations of these options can be found on page 9.

Minimum Order Quantity & Lead Times

The minimum order quantity for woven labels is just 1,000 pieces. The lead times for production are approximately 2-3 weeks.

Quotations

We are happy to provide quotations on existing woven labels as well as new developments. If you would like a quotation please provide us with the following information.

Existing Label

Please provide a physical sample of the woven label and if possible, the original artwork file.

New Development

Please provide artwork or sketch with quality, size, colours and finishing information.

Please also include details of the quantities you would like quotations for.

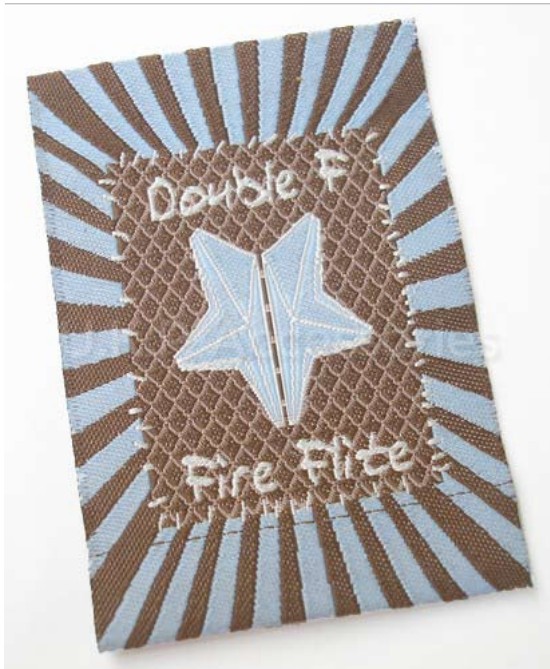

Artwork Requirements

For quotation purposes we are able to accept a sketch or a jpeg/bitmap image file. For production we ideally need the artwork file in either **AI**, **PDF**, **PSD** or **EPS** format but can accept a high resolution **JPEG** or **BMP** image. Please ensure that all text is created to outlines and Pantone colour references are given.

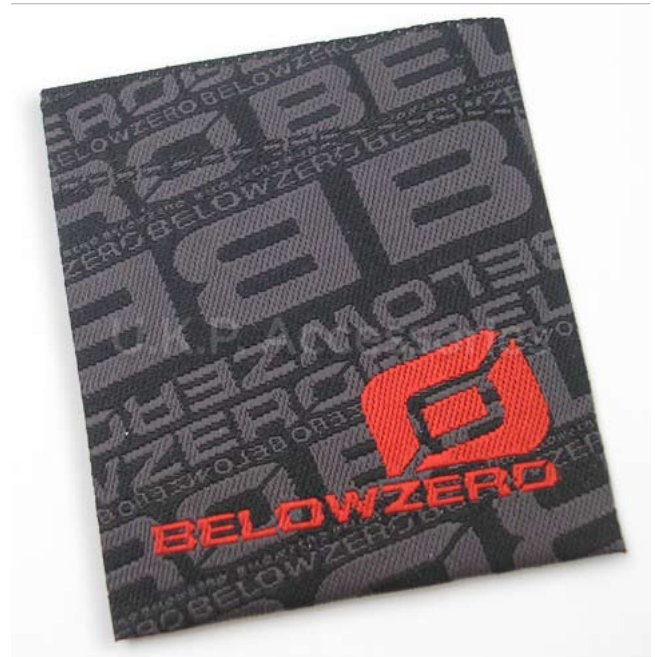

If you need any assistance any aspect of your woven label, please do not hesitate to contact us, we will be happy to help.

Woven Labels

Consecutive Number Woven Labels

If you would like to make each of your garments unique, we offer a woven label with variable data. The labels are woven in groups of consecutive numbers to ensure each garment has a unique identifier.

Woven Label Cut & Fold Options

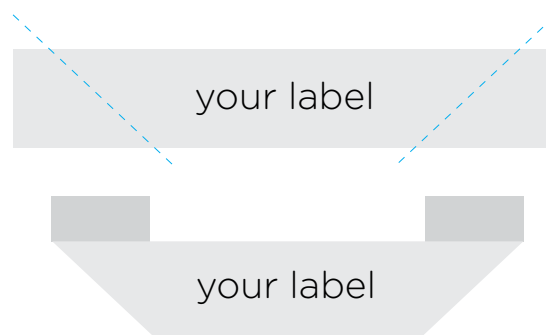

See the below diagrams of the cut and fold options that are available for woven labels.

end fold

Label is folded down on the left and right side. This option is most suitable for sewing in neck labels.

mitre fold

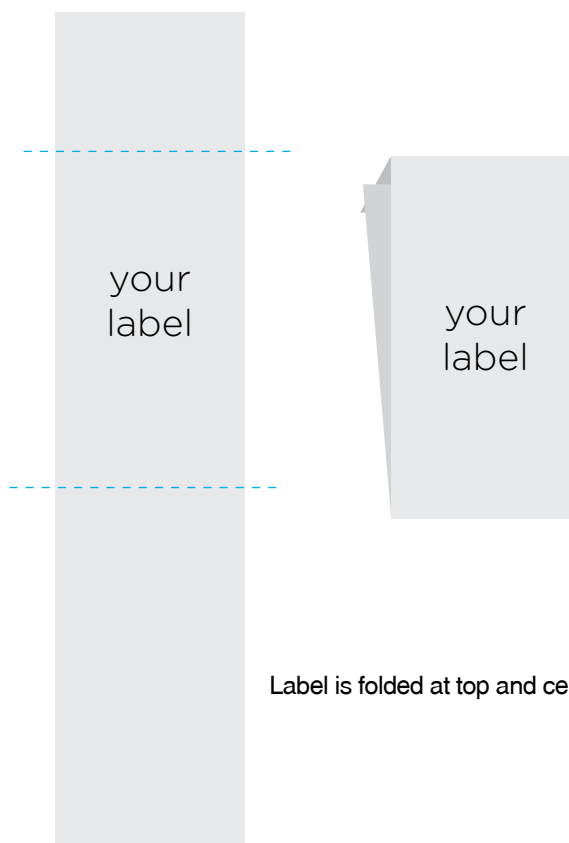

The ends are folded under and up, creating a tab to be sewn into the seam.

centre fold

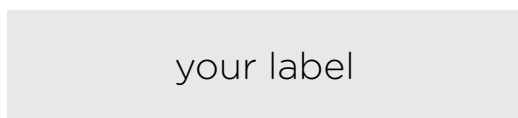

Label is folded in the middle and usually sewn into a seam.

manhattan fold

Label is folded at top and centre.

straight cut

Label is cut and edges are heat sealed.
